

Spend less time planning and more time making memories

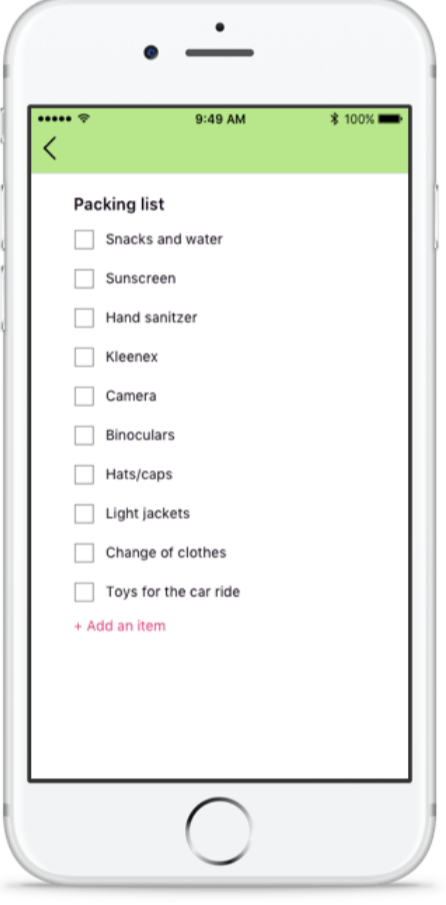

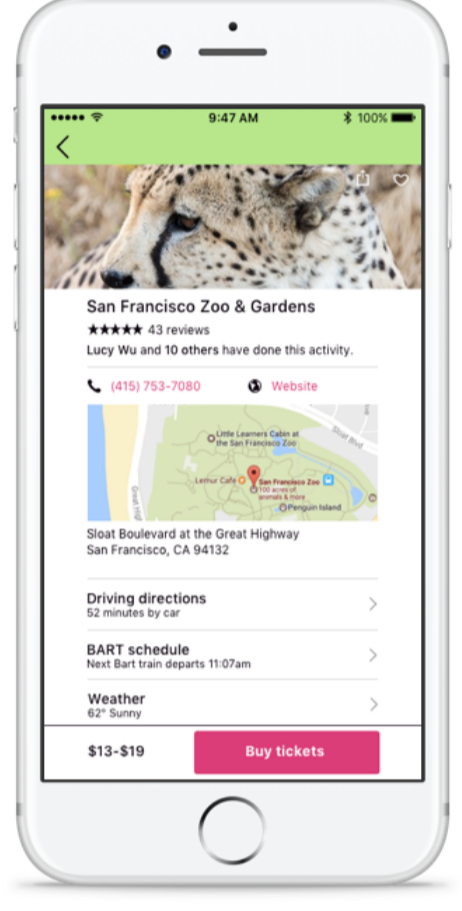

Download the app

How it works

Find an activity based on your family's interests and schedules  
Whether it's spending the day at SFMOMA or hiking for a couple of hours, you can find things to do that you and your kids enjoy.

Plan your entire outing with just one app  
Cherish helps you get it all done – buying tickets, getting driving directions or train schedules and checking the weather forecast.

Save time on the details  
Use the pre-made packing list to take what you need for where you're going. Get nearby restaurant recommendations and chat with friends and family to coordinate easily.

What fans are saying

The app is so easy to use. In less than ten minutes, I had an entire day planned for my family. I've shared the app with my friends and coworkers and now they're using it.  
- Chase Cortez

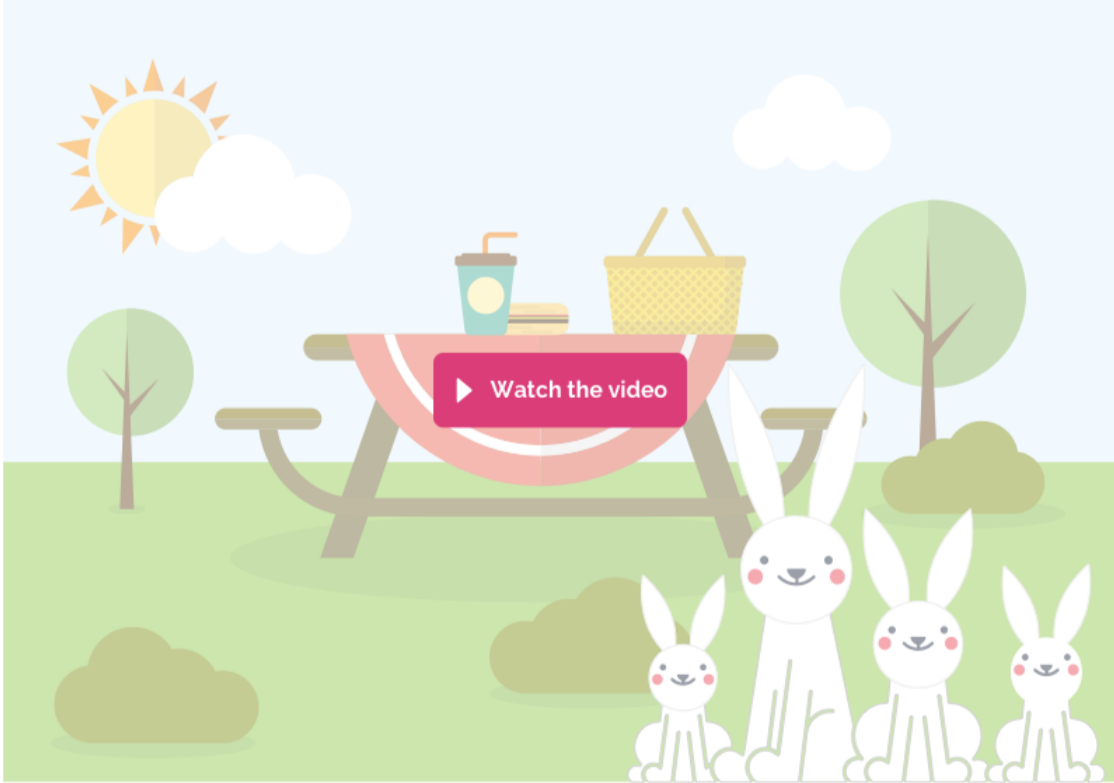

So far, I've taken my son to the zoo, the aquarium and SFMOMA. He's enjoyed all of them. Next on the list is a kids' cooking class. He can't wait for our next adventure and neither can I!

- Tiffany Sanders

What I love most about Cherish is the packing list. I don't have to think about what to take or worry about forgetting anything. I just look at my list, pack the bag and we're out the door.
